

BITUMEN MEMBRANE

Waterbased Bitumen Membrane is a quality general purpose flexible membrane, reinforced with rubber latex to provide flexibility and increased strength

QUICK DRYING • HEAVY DUTY

Safe for potable drinking water
Durable Waterproof Finish
Hard Wearing
Safe, Non-toxic, Low Odour

Gutters and drains Underground or immersed areas
Potable and rain-water tanks Retaining Walls, Pots & Planters

Bondall Waterbased Bitumen Membrane is made up with 4 core ingredient groups, the binders, preservatives, thickeners & additives.

The binders used are inert once fully cured to a dry film, while the rest of the ingredients (preservatives, thickeners & additives) are biodegradable* when the membrane is used with soils.

*Please note that the biodegradability of these materials can vary from 1 to 28 days when these materials are exposed to the soil environment.

Test control excludes extraneous variables such as pesticides & fumigants or chemical additives.
